

ERASMUS+

SUNDAY

On our arrival day, we had just flown to Cukurova, from where we were taken by bus to Mersin. We met our host families who were very sweet to welcome us. They took us to different places they like.

Monday

- On our second day we went to Su Koleji school, where we met other schools, had lunch and had a small presentation. We participated different activities (solving math problems, coding). In the evening we were taken to one of the biggest shopping centres in the city, where we met our hosts friends and had fun.

Tuesday

- Tuesday was all about Science. The Portugese team showed a Science demonstration, and we were able to see how a CD is used to make a rainbow. We were able to participate in escape room activity with our host school. After lunch we had Mercan tour (Sciense centre), where we observed how the Earth works. In the evening we visited the city and the port.

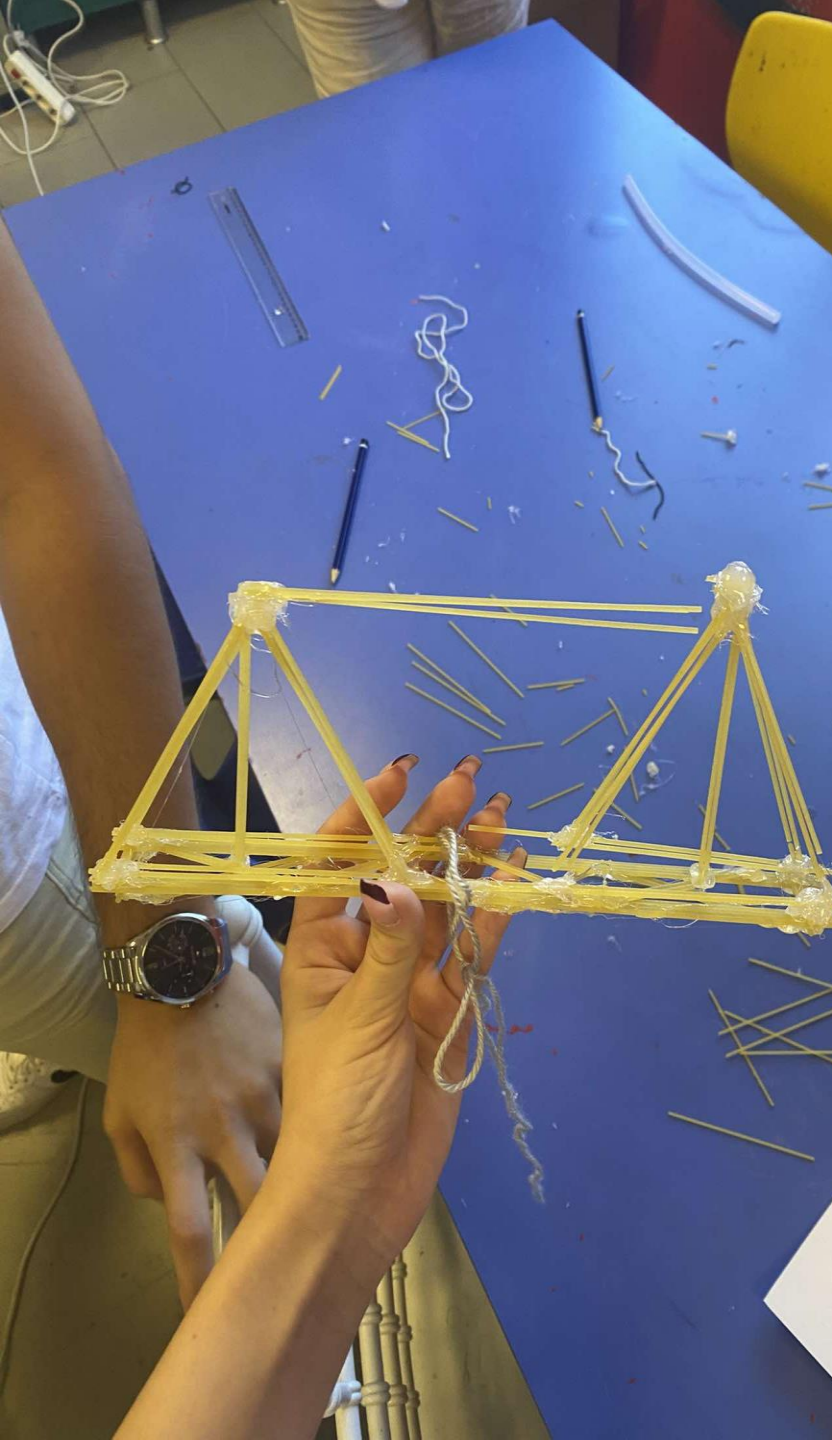

Wednesday

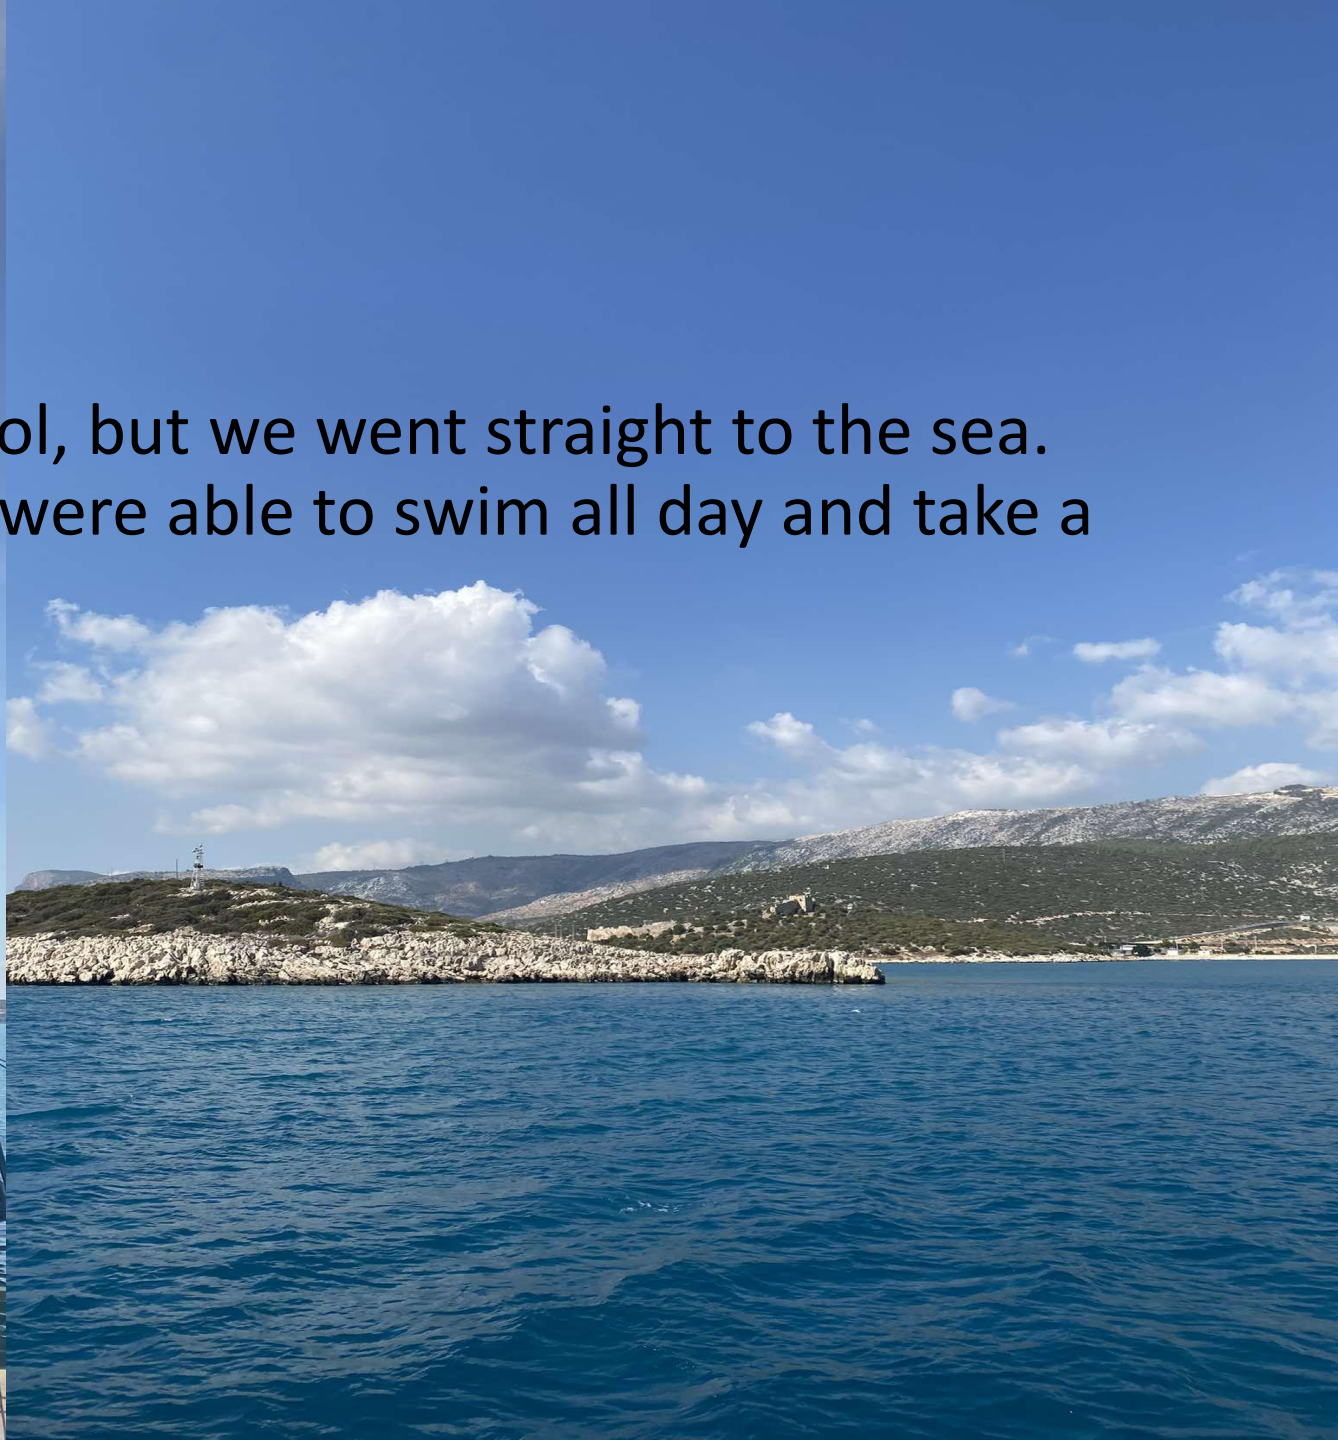

- On Wednesday we built spaghetti bridges with the help of the Finnish team and tested how much weight they could support. After lunch we were shown around the sights of the city. We spent the evening together in the city.

Thursday

- On this day we didn't go to school, but we went straight to the sea. Thanks to the good weather we were able to swim all day and take a boat trip.

Friday

- It was our last day at school. Each country presented their culture and dances. We tasted different snacks and foods and had great time. We said goodbye to everyone and spent afternoon with shopping. In the evening we spent some more time with our families. We went to beach, talked lot and had fun.

Saturday

- Our departure day. We said goodbye to our host families in the morning and then headed to the airport with the Finnish team, Got on board and said goodbye to Turkiye.
